 I think the most vital argument of this new story is the one below.
 @isislovecraft @BiellaColeman
- There are some differences between how Jake is behaving to how the other anarchist I mentioned above was behaving. The other anarchist was willing to engage in the defined process, respectful of his victims' needs, and eventually sincerely apologetic for his actions.

Willy Gómez @zxul767 · Jun 25, 2016
most serial rapists/murderers do have a history of child abuse/neglect, but it's well known they don't rehabilitate

Pieter Hintjens @hintjens · Jun 25, 2016
most abused children do not abuse as adults. Abusive behaviour does have a strong genetic basis.

Willy Gómez @zxul767 · Jun 25, 2016
I'm sure genetics plays a role, but I dont think it completely determines whether a person will become an abuser.
